MACHINERY

Index to Vol. XX

September, 1913, to August, 1914

Engineering and Shop Editions

1914
THE INDUSTRIAL PRESS,
140-148 Lafayette St.,
New York

Index to MACHINERY

	Eng.	Shop.
A		
Abrahamsen, Otto, Personal of	912	640
Accident, A Peculiar. John A. Cook	587	403
Accident Prevention, Recording Memoranda on	251	171
Accident Prevention, State Laws on. Mancius S. Hutton	1034	
Accles, William Sloane, Personal of	721	505
Acme Machinery Co.: Semi-Automatic Nut Tappers	429	293
Acme Machine Tool Co.: Acme Flat Turret Lathe	240	160
Acklin Stamping Co.: Drawing and Forming an Automobile Clutch Cone	182	126
Addis, William H.: A Plea for Beveled Edges	502	342
Advertising in the Professions. Navillus	785	545
Advertising Possibilities of Moving Pictures	528	368
Aeronautic Achievements, Prizes for Competitions Relating to	964	
Aeronautics Instituted by Massachusetts Institute of Technology, Courses in	981	677
Aeroplane, Curtiss Trans-Atlantic	1002	689
Aeroplane Exposition, The Paris	510	350
Aeroplane, Giant Russian	564	
Aeroplanes of Wright Co	639	
Air Brake Tests, Pennsylvania Railroad	615	431
Air Compressors	1002	698
Air Compressors, Ingersoll-Rand	893	621
Air Hardening Fixture for Tool Dressers	308	204
Air, Production of Liquid	636	452
Air, To Remove Oil Vapor from Compressed	787	547
Akron Gear & Engineering Co.: Akron Multi-cone Clutch	1086	750
Aksban, George: Attachment for Combination Set	306	202
Albert, C. D.: Punching Machine Frames	569	
Albion: Turret Lathe Set Up for a Small Screw	51	27
Alden, John L.: Calculation of Stresses in Automobile Front Axles	389	
Adjustable Cam-Shaft and Timer Drive	657	
Alert Tool Co.: Alert Roller Mandrels	233	153
Alexander, B. F.: Worm Hobbing Attachment for Automatic Screw Machines	634	450
Allen Mfg. Co., Inc.: Socket Fillister Screw	604	420
Allen, O. L.: A Rapid Retapping Wrench	224	144
Allen, Walter C., Personal of	814	574
Allen Wrench & Tool Co.: Friction Socket Wrench	522	263
"Alligator Skin" Effect on Drawn Sheet Metal, Cause of	758	
Alloy: Combination Heat-Treating Furnace	646	
Alloy, Metal Cork—A Light Weight Metal	921	649
Alloy Steel Gears in Machine Tool Construction	1026	722
Alloys of Aluminum and Zinc	931	679
Alloys, Coloring Non-Ferrous Metals and. E. F. Lake	27	
Alloys, Nomenclature of	802	568
Almond Mfg. Co.: Post Type Radial Drill	904	632
Alter, R. S., Personal of	1005	701
Alternating-Current Machinery Troubles. E. O. Lof. 1	204	
2	283	
Alton, W.: Friction Driven Power Screw-driver	90	66
Drawing in a Single-Acting Press	497	337
Aluminum, Briquetting Brass, Bronze and	411	275
Aluminum Cheapening	731	515
Aluminum Consumed in U. S. During 1913	803	563
Aluminum, Method of Dissolving	739	523
Aluminum and Zinc, Alloys of	931	659
American Drafting Furniture Co.: Draftsman's Chest	1035	231
"American Machinist" Theater Party	248	168
American Milling Machine Co.: Milling Machine	444	308
American Museum of Safety, Award of Medals By the	413	277
American Pulley Co.: Manufacturing "American" Steel Pulleys	623	439
American Railway Master Mechanics Association, Annual Convention of M. C. B. and	984	680
American Society of Mechanical Engineers, Spring Meeting of the	1002	698
"American" Steel Pulleys, Manufacturing. Franklin D. Jones	623	439
American Tool Works Co.: American Heavy Service Shaper	887	615
American Swiss File & Tool Co.: "Wavecut" File	905	633
Ames, B. C. Co.: Bench Filing Machine	906	634
Anglada, Joseph, Personal of	254	174
Angles of Angle Beam Shear Blades	230	150
Angles of Angle Beam Shear Blades. James Burke	500	340
Angles of Angle Beam Shear Blades. J. M. Henry	581	397
Angular Settings, Disk and Square Method of Determining. Guy H. Gardner	128	
Annealing Steel Castings	1063	727
Annis, Russell K.: Cutting a Spiral on a Lodge & Shipley Lathe	683	467
Anti-friction Bearing Metals for Various Pressures	547	387
Apprentice Boys, Book Agents and. G. W. Jager	679	462
Apprentice Industrial School, Woods	315	211
Aquitania, The Turbines for the	489	329
Arbors and Methods for Turning Operations, Work Holding	81	57
Arbor for Bevel Gear Shaper, Special. C. Boella	586	402
Arbor Press, Portable	1002	698
Arbor Presses, Eames	907	635
Arbors for Second-Operation Work. Albert A. Dowd	115	
Arbor, Grant Internal Grip	426	290
Archdale & Co., Ltd., Messrs. J.: Centralized Control Radial Drilling Machine	614	
Argentina, Trade Marks in	964	
Arm, Universal Swiveling Facing	613	429
Armature Disk Tools, One-Piece. Douglas T. Hamilton	356	252
Armature Disk Tools, One-Piece	579	395
Armature Manufacture, Sur-press Dies for. Fred K. Hudson	936	
Armature Shafts, Machining	455	319
Armstrong-Blum Mfg. Co.: High-Speed Hacksaw	613	429
A. S. M. E., Annual Meeting of the	412	276
A. S. M. E., December Meeting of the	337	233
A. S. M. E. Meeting in Worcester	232	152
A. S. M. E., New Size Journal	510	350
A. S. M. E. Standard Screws, Drilled and Punched Holes for. C. F. Scribner	1071	735
Association, Westinghouse Electric Veterans'	650	
Athol Machine Co.: Vise Taper Attachment	519	359
Atkins & Co., E. C.: Improved "Kwik-Kut" Machines	718	501
Atlas Car & Mfg. Co.: Storage Battery Truck	335	231
Attachment for Combination Set. George Aksban	306	202
Attachment, Rack-cutting	1097	761
Attachment, Whitcomb-Blasdell Relieving	1094	
Aurora Tool Works: High-Speed Drill	703	487
20-inch Drill	992	688
Autogenous, see also Welding.		
Automatic Drill Chuck Corp.: "Quictite"	991	687
Automatic Features on Machine Tools. Edson R. Norris	250	170
Automatic Feed Mechanism for Small Brass Cups. Lawrence Fay	779	539
Automatic Machinery for Dangerous Work	360	256
Automatic Square Double Seaming Machine	804	564
Automatic Screw Machine: See Screw Machine.		
Automobile Building, Moving Pictures of	578	394
Automobiles, Census of World's	277	
Automobile Clutch Cone, Drawing and Forming. Douglas T. Hamilton	182	120
Automobile Cylinder, Repairing an. J. H. Clarke	408	272
Automobile Cylinders, Test Gages for. E. H. Pratt	399	263
Automobile Engine Cylinders, Boring and Reaming	746	
Automobile Engineering as a Career	786	
Automobile Engineers and Standardization, The Society of	656	
Automobile Engineers, Society of	337	
Automobiles, Fool-Proof	183	
Automobile Front Axles, Calculation of Stresses in. John L. Alden	389	
Automobile Front Axles, Forging and Machining	287	
Automobile Manufacture, Economy in	190	
Automobiles, People Killed During 1913 by	656	
Automobile Rear Axle Design. K. W. Najder	36	
Automobile Rear Axle Design. M. Terry	406	270
Automobile Tires, Centrifugal Force on	578	394
Automobile Tonneau, Drawing an. W. A. Valentine	781	541
Automobile Wheel Hubs on Bardons & Oliver Turret Lathe, Machining	769	529
Automobile Window Regulator (Commercializing a Product by the Use of Press-Work). Chester L. Lucas	671	455
Automobile Work, Special Machines for	336	232
Axle Centering Machine, Espen-Lucas	610	426
Axle Design, Automobile Rear. K. W. Najder	36	
Axle Design, Automobile Rear. M. Terry	406	270
Axle Lathe, Bridgeford	605	421
Axles, Forging and Machining Automobile Front	287	
B		
Babbitting and Planing Cross-Head Gibs	588	404
Backlin, Axel F., Personal of	169	113
Backstand for Automatic Screw Machine. R. W. Ullmann	506	346
Bain, Francis L.: The Advantages of Manual Training High-Schools	549	
Baird Equipment Co.: Time Recorders	613	429
Bake, Richard Ward, Personal of	1008	702
Baker Bros.: Baker Automatic Drilling Machine	156	100
High-Speed Drill	515	355
Balance, Delicacy of the Chemical	617	433
Balancing Machine, Rockford Combination Drilling and	600	416
Baldwin, A. S., Personal of	721	505
Baldwin, A. S., Personal of	814	574
Baling Press for Scrap Brass and Copper	803	563
Baling Machine for Sheet Metal Scrap	803	563
Ball, Martin H.: Standard Width and Thickness of Keys	227	147
A Problem in "Hexing"	402	266
Equalizing Driving Dog	876	604
Ball and Socket Turning Device. L. D. Peik	1045	
Ball Bearing Application, A. Donald A. Hampson	1071	735
Ball Bearing Box, Fafnir	518	358
Ball Bearings for Lineshafts, Efficiency of Ordinary	828	588
Ball-Bearing Hanger, The Bright	427	291
Ball Bearing, Hess-Bright	897	625
Ball-Bearing Races, Gage for	446	310
Ball Bearing, Suspension	72	48
Ball Bearings, Formula for Determining the Ball Circle Diameter for. Wilbur C. Prior	35	
Ball Bearings, Load Capacity of	762	
Ball Bearings, Sliding Action in. M. Terry	636	452
Ballard, David L., Personal of	446	310
Balloons, Coronium Gas for	564	
Band-Brake Design, Principles of. G. M. Dahl	386	
Band Saw, Houghton & Richards Metal Cutting	709	493
Band Saw, Shinn Metal Cutting	906	634
Band Saw Sharpening Machine, Wardwell	988	684
Bar Stock Guard for Turret Lathes	1003	699
Bardons & Oliver: Machining Automobile Wheel Hubs on Bardons & Oliver Turret Lathe	769	529
Barnes Drill Co.: Barnes 22-inch Self-Oiled Drill	322	218
Extension Gap Lathe	794	554
Barnes Drilling & Tapping Machine	891	619
Barrel Welding Machine	912	640
Barrett Machine Tool Co.: Cylinder Boring Machine	909	637
Bartlett, G. M.: Calculations for Roller Chain Drive	567	
Barton, Charles S., Obituary of	1004	768
Barton, Daniel M., Obituary of	446	310
Barwood, Robert W., Personal of	721	505
Batdorf, Charles S., Personal of	1102	766
Bath Grinder Co.: Cutter and Reamer Grinder	514	354
Bausch Machine Tool Co.: Multiple Spindle Drill	804	564
Baxter, E. Winslow: Lengths of Worms and Hobs	193	
Beading Tool, A. C. Boella	687	471
Beam Micrometer Caliper, An Old	114	
Beaman & Smith Co.: Boring Machine	593	409
Beams, Approximate Rules for Steel	850	
Bearing. See also Roller Bearing.		
Bearing Brasses, Adjusting. John Peddle	502	342
Bearing Metal, High-grade	550	
Bearing Metals for Various Pressures, Anti-friction	547	387
Bearing Pressures Due to the Action of Bevel Gears Under Load. Ralph E. Flanders	639	
Bearing, Roller	613	429
Bearings. See also Ball Bearing.		
Bearings, A Few Questions About Ring-Oiling. A. De Signer	134	78
Bearings, Comparative Tests of Three Types of Lineshaft	479	
Bearings, Concerning Ring-Oiling. William S. Rowell	306	202
Bearings, Heavy-Duty Shafts with Two and Three. W. G. Dunkley	659	

Index for engineering and shop editions. Page numbers of respective editions in columns headed "Eng. Shop."

	Eng.	Shop.
Beck, Henry J.:		
A Labor-Saving Shear	53	29
Becker, Jr., John, Personal of	530	370
Becker Milling Machine Co.:		
Vertical Milling Machine	167	111
Horizontal Milling Machine	167	111
Milling Cutter	900	628
Horizontal Milling Machine	909	637
Bell Crank:		
Filing Your Own Patent	969	
Belt Conveyor Pulley Diameters	882	610
Belt Drive, Double-Ply	145	89
Belt Guard, Examples of. Geo. F. Stack	965	671
Belt Lacing, Making Steel Wire	194	
Belt Pole	613	429
Belt Shifter, LeBlond Machanical	327	223
Belt Tension Scale	444	308
Belt Tightener, Southwick "Little Giant"	1092	756
Belting, Lacing Leather. Geo. Garrison	1069	733
Belts, Device for Adjusting Driving. Ernest Schwartz	974	670
Belts, Guards for Gears and Driving	1004	700
Belting, Steel	247	167
Belts in Cold Weather. N. G. Near	501	341
Belts, Preparing and Cementing. W. C. Betz	407	271
Belts, Steel Driving	745	
Belts, Tilton Endless Woven	331	227
Bemis, Edgar W.:		
Work-Holding Head	996	692
Bench Drill, Peerless Twelve-Inch	73	49
Bench Leg Patented	846	
Bender, J. L., Personal of	1008	702
Bending Brake, Niagara Folder and	156	100
Bending Die, A Cutting and. Spring Craig	1064	728
Bending Machine	1097	761
Bends from Straight Sheet Metal Pipes, Making. Foreman Plater	463	327
Benjamin Electric Mfg. Co.:		
Screw-Driver	523	363
Bennett, Alan M.:		
Unique Arc Welding Operation	222	142
Electric Arc Welding	927	655
Bennett, G. W., Obituary of	169	113
Bennett, H. D.:		
Boring Mill Pressure Compensator	523	363
Berghauser Machine Co.:		
Sensitive Drilling Machine	803	563
Bertsch & Co.:		
Bertsch Five-Foot Gate Shear	74	50
Besly & Co., Charles H.:		
Besly Double-Spindle Disk Grinder	68	44
Double-Spindle Motor-Driven Grinder	986	682
Besly No. 41 Disk Grinder	1094	758
Betts Machine Co.:		
Betts Cross Planer	319	215
Betz, W. C.:		
Why the Blanks Wrinkled	681	465
A Dial Comparometer	1066	730
Locating a Hole to be Bored	1073	737
Ethics of Contributing to the Technical Press	367	
Preparing and Cementing Belts	407	271
Hand Knurling Tools	505	345
Shrink vs. Pressed Fits	581	397
Measuring the Bore of Rings and Cylinders	687	471
Mounting and Setting Diamonds	137	81
An Auxiliary Compound Rest	144	88
Etching on Brass and Steel	309	205
Bevel Gear Chuck. John Blaner	875	603
Bevel Gear Cutter, Positive Method of Setting. Frank J. Mauld	299	195
Bevel Gear Generator, Gleason Spiral Type	690	474
Bevel Gear Generator, Gleason Three-inch	1083	747
Bevel Gear Shaper, Special Arbor for. C. Boella	586	402
Bevel Gear, The Spiral	638	454
Bevel Gears, Methods of Chucking	539	379
Bevel Gears, Turret Lathe Fixture for Machining	226	146
Bevel Gears Under Load, Bearing Pressures Due to the Action of. Ralph E. Flanders	639	
Bevel Pinions, Multiple Fixture for Roughing the Teeth of. C. Boella	547	387
Bevel Protractor Adjusting Bear. H. E. Thieldberg	680	464
Beveled Edges, A Plea for. William H. Addis	502	342
Bickford, & Co., H.:		
A Seven-Foot Motor-Driven Boring Mill	167	111
Bickford Machine Co.:		
Bickford Tap Fluting Attachment	161	105
Bierbaum-Dollar, Inc.:		
Change of Lumen Metal Bushings Assembled by Pressure	508	348
Billings & Spencer Co.:		
Billings & Spencer Double-Acting Ratchet	331	227
Bitterlich, Walter J.:		
Vibration in Machinery and its Elimination	817	577
Blacksmith and the Automobile, The Country	98	
Blacksmithing, Oil Forge for Machine	120	
Blades, Angles of Angle-Beam Shear	581	397
Blake, Edward, Personal of	620	436
Blaner, John:		
Bevel Gear Chuck	875	603
Blanks Wrinkled in the Drawing Press, Why the. W. C. Betz	681	465
Bliss Co., E. W.:		
Bliss Press with Dial and Automatic Cross Feed	70	46
Power Press Push Guards	1066	730
Blount Co., J. G.:		
Blount Wet Tool Grinder	237	157
Blount Patternmaker's Lathe	895	623
Block, Yale Triplex	162	106
Blow-Holes from Forming in Brass, Preventing. George Garrison	228	148
Blueprint Finisher, Automatic	234	154
Blueprint Finishing Machine	718	502
Blueprint Marking Fluid	1058	
Blueprint Washer, A	110	
Blueprinting Frame, A. C. W. Carrigan	687	471
Blueprinting Machine, Continuous	909	637
Blueprints, Varnishing Drawings and	210	136
Board, Dowd "No-Tack"	155	99
Board, Edward:		
Drill Head	613	429
Eight-Spindle Drilling Machine	718	502
Boella, C.:		
Special Arbor for Bevel Gear Shaper	586	402
A Beading Tool	687	471
Four-Spindle Reaming Attachment for Motor Car Cylinders	457	321
Fixture for Planing Clutches in the Shaper	462	326
Device for Tapping Bushings with Coarse Pitch Threads	497	337
Multiple Fixture for Roughing the Teeth of Bevel Pinions	547	387
Bogart, H. M.:		
Jig for Milling Gibs	227	147
Bole, Wm. A., Personal of	1008	702
Bolt and Pipe Threading Machine, Victor	514	354
Bolt Cutter, Cutting Pipe Threads on	961	
Bolts, Analyzing Strength of Cylinder Head. James H. Rodgers	56	32
Bolts by the Ton, Hardening	830	590
Bolts Required to Join Receiver Parts	145	89
Book Agents and Apprentice Boys. G. W. Jager	679	463
Bored, Locating a Hole to be. W. C. Betz	1073	
Borget, A. J., Personal of	721	505
Boring Attachment for the Turret Lathe, Taper	1074	738
Boring and Facing Spring Shackles. C. F. George	310	206
Boring and Reaming Automobile Engine Cylinders	746	
Boring and Threading Tool, Rigid. Clayton Dane	781	541
Boring and Turning Attachments, Taper. Albert A. Dowd	265	185
Boring and Turning Mills, Niles	701	485
Boring-Bar Holder, Red-E	996	692
Boring-Bar, Spherical. Stanley Edwards	501	341
Boring, Drilling and Milling Machine, Fosdick	150	94
Boring Heads, Flat Cutters for. Frank H. Mayoh	10	10
Boring Machine, Beaman & Smith	593	409
Boring Machine, Cylinder	522	362
Boring Machine, Cylinder	909	637
Boring Machine, Detrick & Harvey	61	37
Boring Machine, Detrick & Harvey	599	415
Boring Machine, Detrick & Harvey	332	228
Boring Machine, Drilling and	1097	761
Boring Machine, Drilling and	718	502
Boring Machine for Gas-Engine Liners	247	167
Boring Machine, Newton Cylinder	521	361
Boring Machine, Newton Tool-Room	239	159
Boring Machine, Rod	335	231
Boring Machine used on Williamsburg Bridge, Special	970	666
Boring Mill	523	363
Boring Mill	613	429
Boring Mill, a Seven-Foot Motor-Driven	167	111
Boring Mill, Four-Spindle	523	363
Boring Mill Pressure Compensator	523	363
Boring Mill, Turning Tapers on a. S. P. Robins	142	86
Boring Tool	1097	761
Boring Tools	444	308
Boring Tools, Design and Construction of. Albert A. Dowd	543	383
"Borrower," Look Out for the	382	
Bow-Bending Machines, Watch Pendand Drilling and. Chester L. Lucas	848	
Bowdle & Co.:		
Bowdle Punch Press Safety Device	66	42
Bower Roller Bearing Co.:		
Bower Roller Bearing	60	36
Box, Fafnir Ball Bearing	518	358
Boyd, A. H., Personal of	912	640
Bracket, Electric Lamp	441	305
Bradford Machine Tool Co.:		
Bradford Eighteen-Inch Lathe	241	161

Wheel-Guard	522	362
Valve Problem on Gasoline Engines, The. M. Terry	551	
Valve Grinder, Foote-Burt Multiple Spindle	62	38
Valve, Hydraulic Press	1097	761
Valve Machine, Pottstown Automatic	151	95
Valves and Guns, Rifling Head for Rifling Recoil	467	
Valves and Valve Seats, Tools for Truing. H. E. Gillette	786	546
Valves, Making Motor Poppet. Douglas T. Hamilton	41	17
Van Derhoef, George N.:		
On Driving Line-Shafting	197	
Van Huffel, Isadore, Obituary of	78	54
Van Norman Machine Tool Co.:		
Van Norman Automatic Radial Grinder	1075	739
Van Wagner, A.:		
Sub-Press Die for Piercing and Shaving	215	135
Vanadium in Brass, Use of	934	
Variable Speed and Reversing Attachment, McCrosky	428	292
V-Block, Holton	60	36
Vernier Caliper, Outside and Inside. Francis W. Clough	977	673
Vibration in Machinery and its Elimination by Herringbone Gears in Rubber Working. Walter J. Bitterlich	817	577
Vickerman, John W.:		
Musical Organizations in Manufacturing Plants	307	203
Victor Tool Co.:		
Bolt and Pipe Threading Machine	514	354
Drilling and Tapping Chuck	803	563
Villiger, Joseph:		
Cutter Head for Rotary Slitting Machines	522	362
Vise, A Drill Press	444	308
Vise Attachment for Holding Drill Rod. G. J. Johnson	141	85
Vise and Drilling Machine, Combination	1097	761
Vise, Hand Drill and Drill	718	502
Vise, Machine	336	232
Vise Taper Attachment, Athol	519	359
Vises, Importance of Strong Bench	944	
Vixen File Co.:		
Using Curved Files on Automobile Bodies	40	
Vlasek, Paul P.:		
Shrink vs. Pressed Fits	582	398
Volcano Torch & Mfg. Co.:		
No. 3-C Hand Torch	997	693
Von Wyck Machine Tool Co.:		
Quick Change Gear Lathe	444	308
Vulcan Engineering Sales Co.:		
Milwaukee Wall Type Radial Drill	516	356
